

## **PROPOSALS FOR SPECIALIST COURSES IN CATALOGO D'ATENEO, A.Y. 2021-22**

1. Dr. D. Besusso- Prof. E. Cattaneo: "Everything you need to know about single cell genomics and how to apply it to cell-based therapies: theoretical and practical course" 18-19 October 2021, 2CFU
2. Prof. M. Kater (responsabile): "Insights in AgroFood Biotechnology Research and Entrepreneurship" (Prof. Arjen van Tunen, CEO of Keygene, Plant Biotechnology company), 25-26 October 2021 2CFU
3. Dr. D. Besusso-Prof. E. Cattaneo: "Genome editing of stem cells for advanced disease modelling" 15-16 November 2021, 2CFU
4. Prof. G. Binelli – "Biostatistics" January 2022, 5 CFU
5. Dr. R. Visintin – "Molecular and Cellular Biology: Methods and Communication Results", February 2022, 4 CFU
6. Prof. S. Ricagno (responsabile) in collaborazione con SEMM: "Integrated structural biology", 8-9 March 2022, 2CFU
7. Dr. F. Zambelli (responsabile), Dott. F. Geuna, Prof. N. Bolli. "HPC@Unimi: INDACO for Genomics and Transcriptomics data analysis" July 2022, 3CFU
8. Prof. M. Kater (responsabile) "How to write a molecular and cellular paper for molecular and cellular biology" September 2022, 4CFU
